

AGROFORESTRY & CONSERVATION

FOR PEOPLE, PLANET, AND WILDLIFE

EXPLORE

ABOUT US

Welcome to the Mary Okelo Conservancy At the foot of the Nandi Escarpment in Kibos, Kisumu, we are regenerating land once intensively farmed with sugarcane. Since the 1980s, Dr. and Dr. Okelo have been replanting indigenous trees, creating a thriving forest that now shelters over 150 bird species and growing biodiversity. The next chapter builds on this foundation: combining agroforestry, community education, and wildlife-friendly farming to restore balance between people and nature.

Our Vision

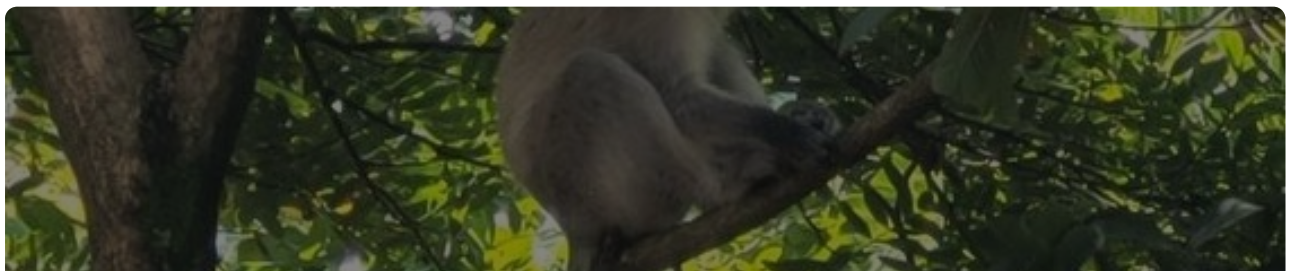

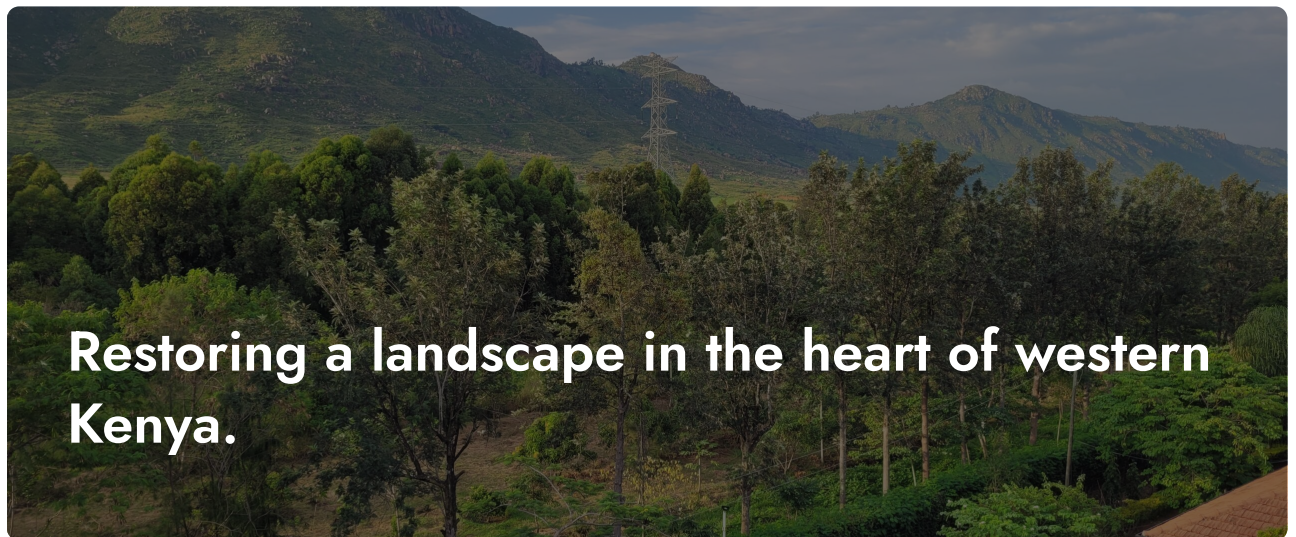

Regeneration:	—
From monoculture to mosaic — reviving ecosystems, soil health, and biodiversity.	
Agroforestry:	+
Education:	+
Community Hub:	+
Wildlife & Farming Together:	+

Why It Matters

The Mary Okelo Conservancy is a seedbed of recovery:

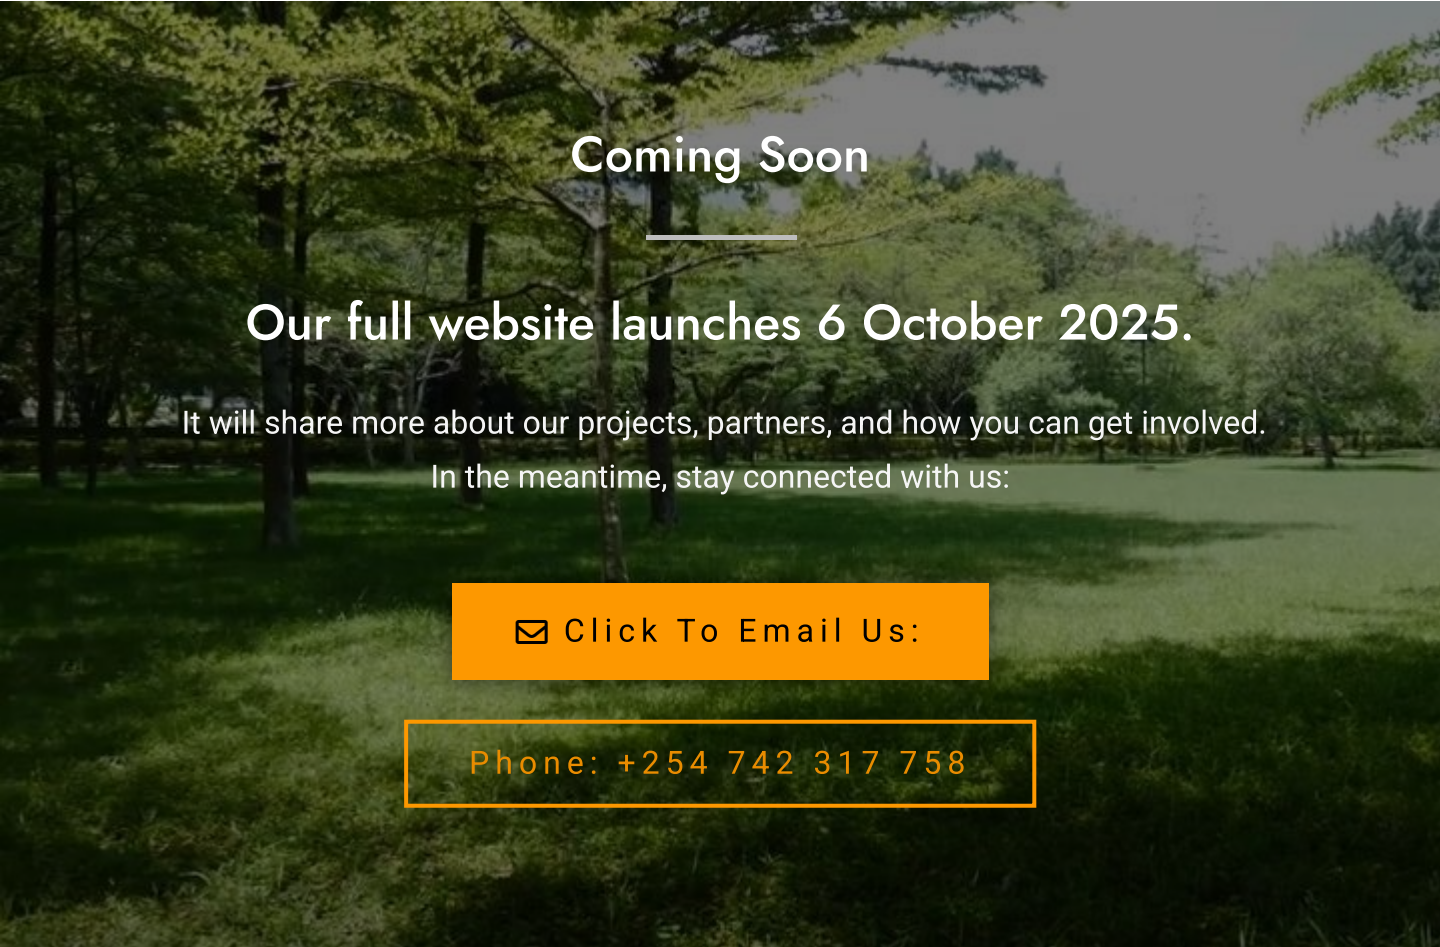

Creating corridors for wildlife and spaces for people to learn.

Demonstrating that farming, forests, and futures can thrive together.

Coming Soon

Our full website launches 6 October 2025.

It will share more about our projects, partners, and how you can get involved.

In the meantime, stay connected with us:
